

**MAXIMIZING
ASSET
MANAGEMENT
TECHNOLOGY**

► **Complete control of assets is within your grasp.**

Starboard Consulting is a leading asset management technology firm focused on problem solving and delivering real world, practical solutions.

► **We are Maximo professionals.**

Bringing years of asset management experience to our clients, we provide full implementation services, readiness assessments, configuration, upgrades, mobile solutions, integrations to other key enterprise applications, and customized role-based training to deliver essential knowledge to the end-users.

Whether you are a new Maximo customer or upgrading from a prior release, Starboard Consulting provides technical support, staff augmentation, training assistance and full implementation services.

► **Starboard Consulting creates partnerships that extend beyond technology.**

We listen to and work with clients every step of the way, managing change for the people and processes impacted by the implementation.

Starboard can manage the full development life cycle, from project inception to post-implementation support, working closely with internal and external development team members, or if needed, we can step into the process anywhere along the way.

KEY SERVICES

Starboard’s role is to optimize your business technology, providing you with the proper analysis tools to move your enterprise forward. We offer:

- ▶ **Industry Templates** – Incorporating proven data, work flows and standards specific to your industry into your Maximo implementation.
- ▶ **Implementation Assessment** – Discovering your business situation, identifying risk and recommending an implementation strategy.
- ▶ **Data Migration** – Collecting, standardizing and loading your legacy and enterprise data into your Maximo system.
- ▶ **Integration** – Seamlessly connecting Maximo to your other Enterprise applications such as financials, human resources, customer service, SCADA, document management, GIS and vehicle tracking, using real-time or bulk processing services.
- ▶ **Implementations and Upgrades** – Our professionals also help first-time Maximo users navigate through the technology implementation process and assist experienced users with upgrades, providing configuration services, post-implementation support, and mobile solutions.
- ▶ **Training** – Conducting Maximo role-based training courses and offering interactive, online learning modules (IOLs) for your end users using your configured Maximo system and customized training materials.
